Approved For Release 2005/07/13 : CIA-RDP70-00211R000800070051-9

SPECIFICATIONS
CHECK SHEET HOLDER

MATERIAL:

1. The holder shall be a rigid vinyl plastic, smooth finish, free of blemishes and surface imperfections such as nicks, dents and deep scratches and shall be a red color throughout (not surface tinted) equal to sample attached. Thickness shall be in accordance with print dated 4-18-61 attached and made a part hereof.

2. The magnets shall be of a mar proof type, "B. F. Goodrich Flexible Koroseal Magnetic Strip" or equal. These magnets shall be to the dimensions shown on attached print dated 4-18-61 and shall be bonded to the vinyl plastic sheet with an appropriate adhesive to insure their secure fastening against removal by tampering or by sharp jar or shock normal to the intended use. The magnets are to be of sufficient strength to hold the holder plus attached form against a vertical metal surface such as a safe drawer without sliding or dislodging during normal opening and closing of the drawer and adjacent drawers. The attached prototype is completely adequate in this respect. Repeated slamming of the drawer will not dislodge it.

DIMENSIONS:

All dimensions shall be according to blueprint specifications attached. (4-18-61)
